

The School Health Advisory Council (SHAC) had a short, update meeting Wednesday January 29th, 2014 at the elementary cafeteria. Those present were Susan Blanks, Lana Bush, Mollie Moeller, Michelle Moore, Shirley Sloan and Tiffany Thomas. The SHAC has gained Teresa Martinez as a new member. She is replacing Jamie Davis and will also serve as a high school representative. The toothbrush distributions at Halloween in the Park/Fall Festival were big successes and will be continued. The Bunco event has not been forgotten but postponed for now until we can get further information on when/where to have it. The Backpack Program has received several donations from individual donors as well as three local churches. We are also signed up for the fifth six weeks jeans team here at school so that will be more contribution to this great cause. The Backpack Program which is currently serving 40 students food on the weekends is our biggest, on-going activity and we are trying to "branch out" to make the community even more aware of it.
